

## #Overcoming2Geda ... because WE are stronger together!!!

As events unfold, it is clear the world is facing an unprecedented challenge in history, with an unseen menace, against a common enemy – a threat to not only our health but our economies; and Nigeria is not left out, as the number of infected persons increase daily and parts of the country are in lockdown. We thus continue to commend and support the responses of governments at all levels globally, the relevant agencies, medical practitioners, health care givers, media organisations, religious bodies, and other public and private sector organisations and actors for the work that they are doing to manage the Coronavirus (“Covid-19”) Pandemic. Our heartfelt wishes go to all those affected directly or indirectly and pray for their speedy recovery.

No doubt about it ... WE will win!

Despite the effect of the pandemic, this is a fight, WE MUST WIN. The Yellow #Overcoming2Geda Logo symbolises our **optimism, creativity, vitality and personal power** – the fact that the sun will shine again. It is not what happens that matters, BUT **HOW WE RESPOND** as individuals, communities and countries working together! We must understand that there is something the pandemic cannot take from us, ever ... **our uncommon courage, our hope and our faith in victory.**

As is glaring, many governments were unprepared for the emergencies that accompany this pandemic; so we must therefore continue to thrive as global citizens in this period of seeming uncertainties, coalesce, as well as share our resources and economies, because now more than ever, WE need to build connections of quality relationships and rebuild our world. We therefore, urge and encourage everyone as follows:

- STAY SAFE:** Maintain the necessary WHO and CDC health/safety protocols, boost your immunity and stay fit – to protect yourself, loved ones, and community, because Covid-19 cannot break you if your powerhouse is strong;
- “GET-GROUNDED”** (not ‘Locked/Knocked-Down’): Turn inward, operate actively from home and Re-Engineer yourself. Don’t put your goals on a pause - take this challenge and turn it into an amazing opportunity for growth:
  - Recreate your personal growth plan and build better habits for enhanced grace and greatness;
  - Strengthen your relationships, bond with your children and families more; and
  - Build a “Home/Crises Income Earning System” and set yourself up for long-term financial freedom.
- BUILD ALTERNATE COMMUNITIES:** Build “micro-support systems” in your neighbourhoods to help the needy/indigent in this season - come together and care for each other. We are STRONGER when WE PULL TOGETHER. Should our personal resources deplete with time, mutual support and cooperation will sustain us. In the coming days, **FUNDACION EXITO** will unveil its framework for **Alternate Communities. Please Join us!**

We **RESPOND** in **FAITH!** We take ownership and responsibility!! **We overcome Together!!! ... All for one and one for all.**  
**Support the #Overcoming2Geda Campaign | #TakeResponsibility | #COVID19 | #COVID19NIGERIA**

Thank you.
